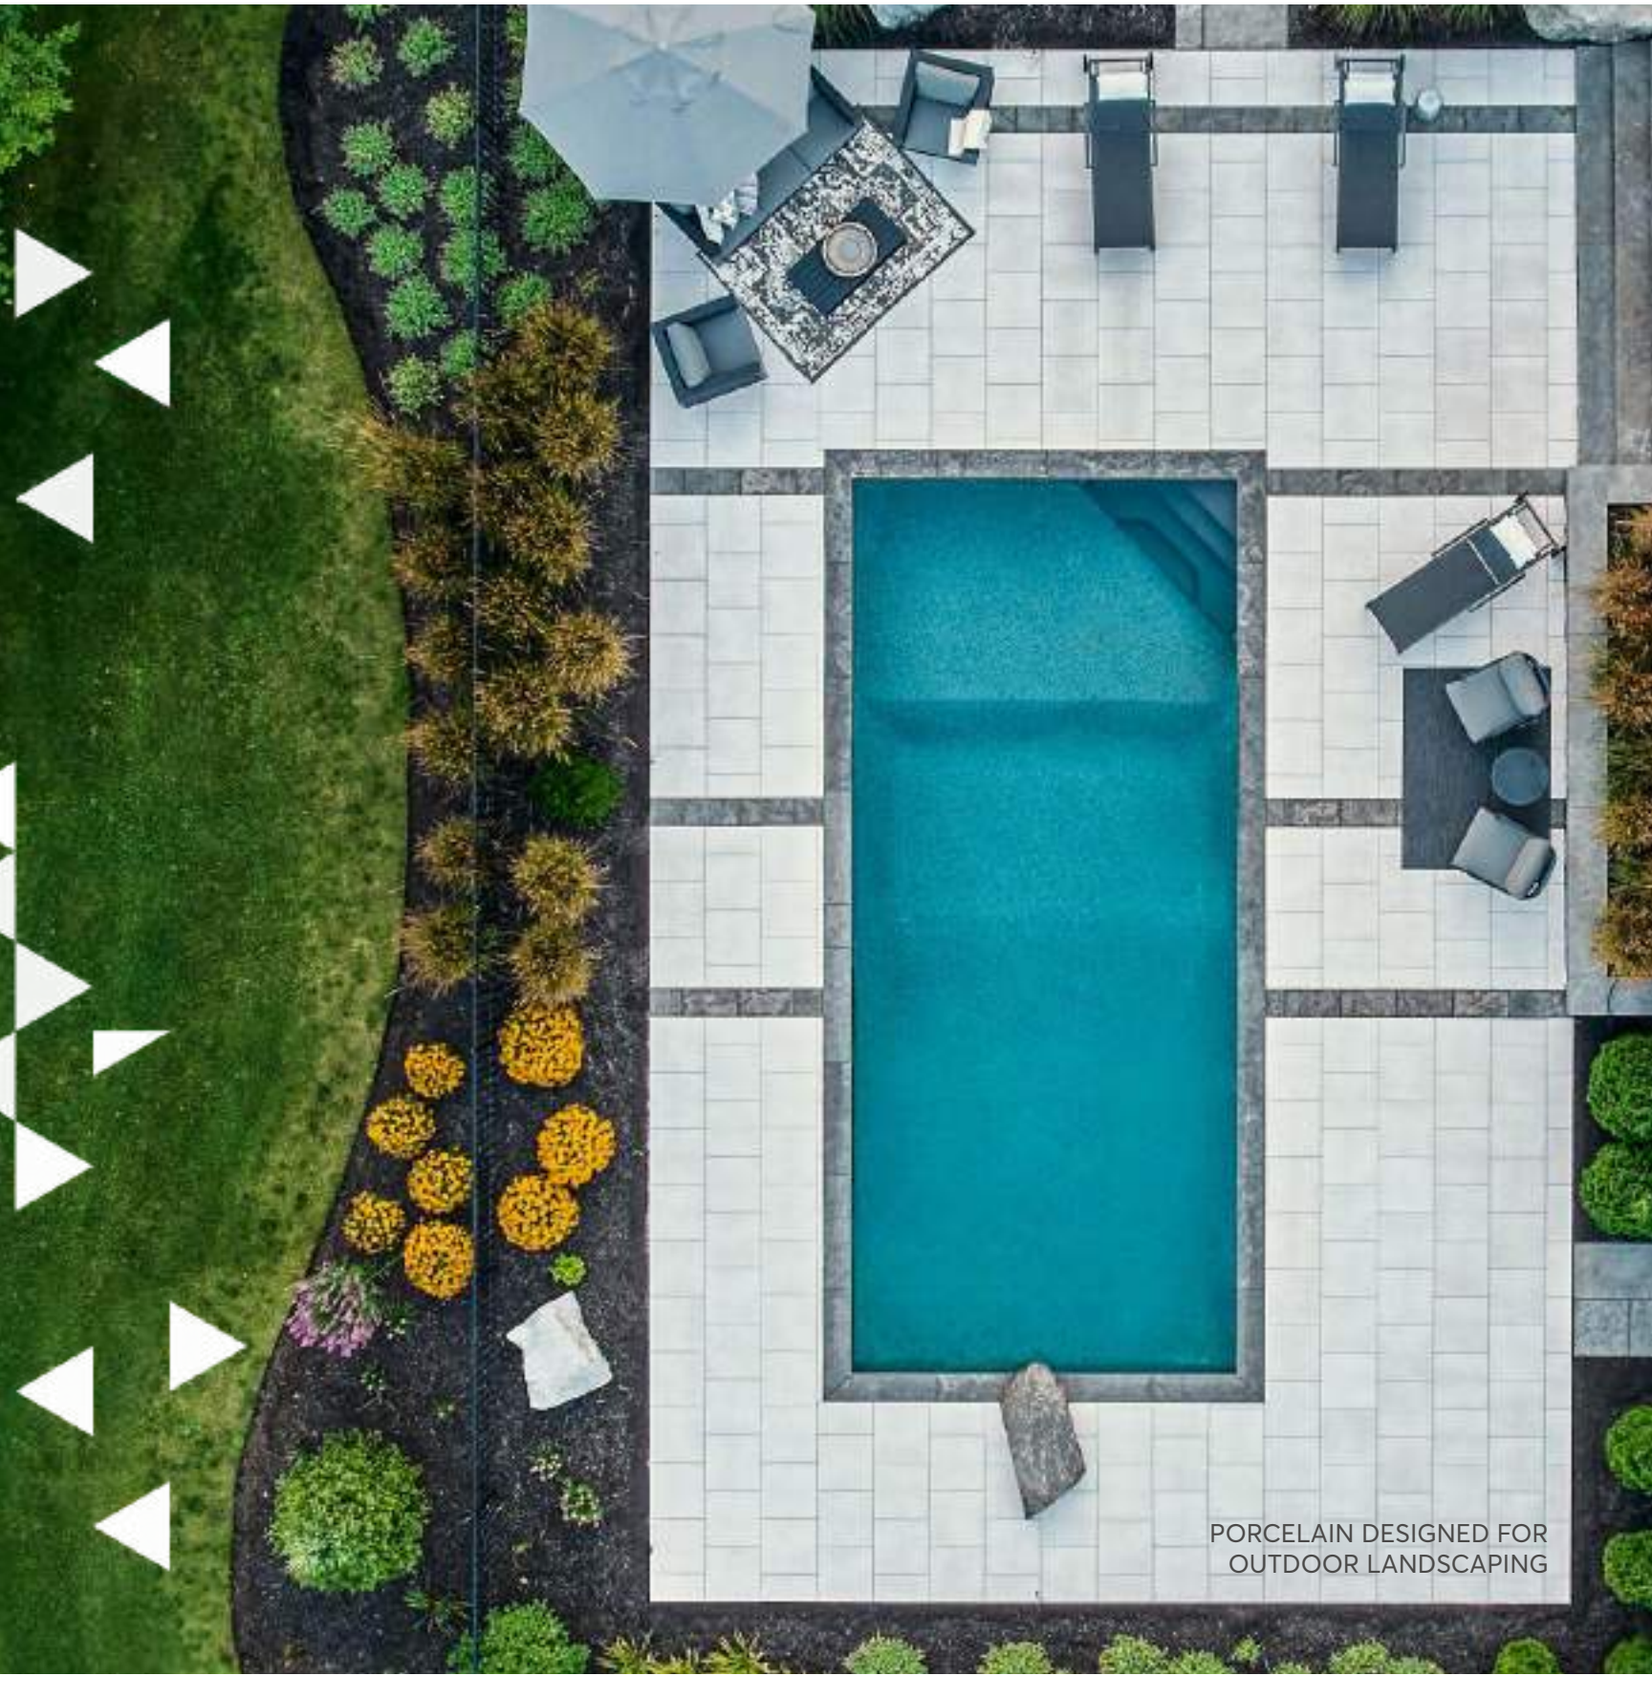
MADE IN ITALY. DESIGNED FOR NORTH AMERICA.

PORCEA STONE

LEADERS IN OUTDOOR PORCELAIN



MADE IN ITALY. DESIGNED FOR NORTH AMERICA.

About us

GUARANTEE BEST QUALITY

Porcea Stone specializes in premium outdoor porcelain pavers for residential and commercial applications. As leaders in product innovation, Porcea Stone is exclusively focused on outdoor hardscaping products.

Our extensive experience in fabrication and sourcing allows us to offer the most extensive range of outdoor porcelain products in North America. We work with the finest raw materials available on the market, along with the most strict quality control processes, allowing us to create porcelain tiles that are resistant to freeze-thaw cycles, salt stains, water absorption, and are weather-tested & time-tested for over 10 years.

Our products have been tested for many years in most Scandinavian countries with similar climates. We are committed to product innovation and offering the highest quality porcelain products in North America.

All our porcelain pavers are - **Designed for North America.**

ASK ABOUT OUR 5 CM PAVERS

One of our recent innovations includes the introduction of 5 cm porcelain pavers to the market, suitable for driveways and high traffic commercial and vehicular applications. There is a reason why top landscape architects and landscape suppliers consider Porcea Stone as - **Leaders in Outdoor Porcelain.**

Residential: Driveways, walkways, pools decks, patios, home cladding
Commercial: Terraces, walkways, sidewalks, restaurants decks, parking lots, building facades

QUALITY
IS IN OUR DNA

ISO545-9: Thermal Shock Resistant
ISO545-12: Frost Resistant

RESISTANT TO FREEZE-THAW CYCLES

Resistant to freeze-thaw cycles with temperatures ranging from -50°C to +60°C, and also time-tested in many Scandinavian countries

ANSI A137.1 (Tile Slip): DCOF ≥ 0.42
DIN 51130 (Ramp Test): ≥R11
DIN 51097 (Barefoot Test): Group C

ANTI-SLIP & HIGH TRACTION

Great traction with a high dynamic coefficient of skid resistance (DCOF) and slip ratings exceeding R11.

ISO545-13: Chemical Resistant
ISO545-14: Stain Resistant

RESISTANT TO SALT/MOSS/STAIN

Highly resilient material that can be easily washed with water and not prone to staining from chemicals, acids, salts, moss, or mildew

DIN 51094 (Light Fastness):
Resistant to Fading

RESISTANT TO COLOUR CHANGE

Unlike natural stone and concrete, porcelain does not easily fade with sunlight or from exposure to UV radiation

ISO545-3: Water Absorption ≤0.1%

LOW WATER ABSORPTION

≤0.5% absorption of water allows for high structural strength, a durable long-lasting material, and suitability for many climates

ISO545-4: Strength >10,000 N (2 cm)
>29,000 N (3 cm)
ISO545-6: Deep Abrasion ≤ 145 mm

FORCE & ABRASION STRENGTH

Durable material that can resist impact/force, and a MOHS hardness rating of 6-8 makes it as durable as granite

Disclaimer: All porcelain pavers vary slightly in technical properties based on factors such as composition of raw materials, baking time, and baking temperatures. Porcea Stone specializes in high quality pavers, however test results can vary slightly from batch to batch. We can work with you to offer product testing and reports for your specific project.

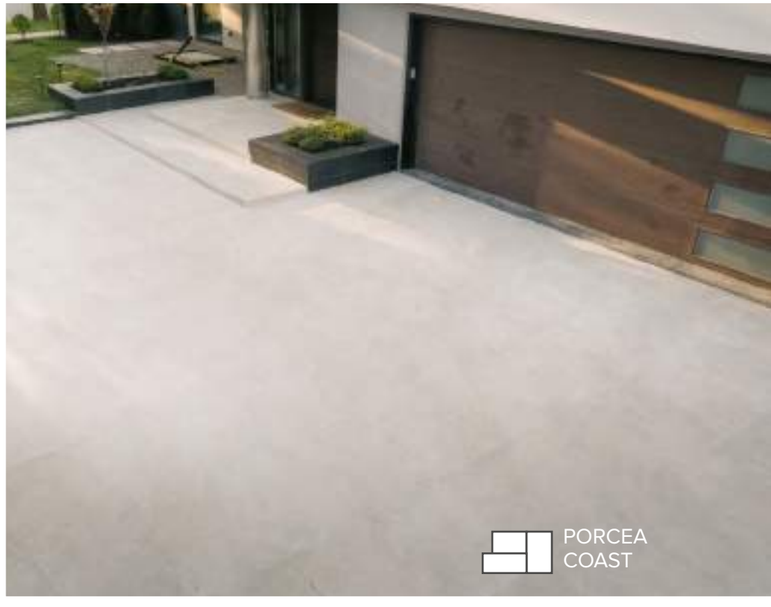
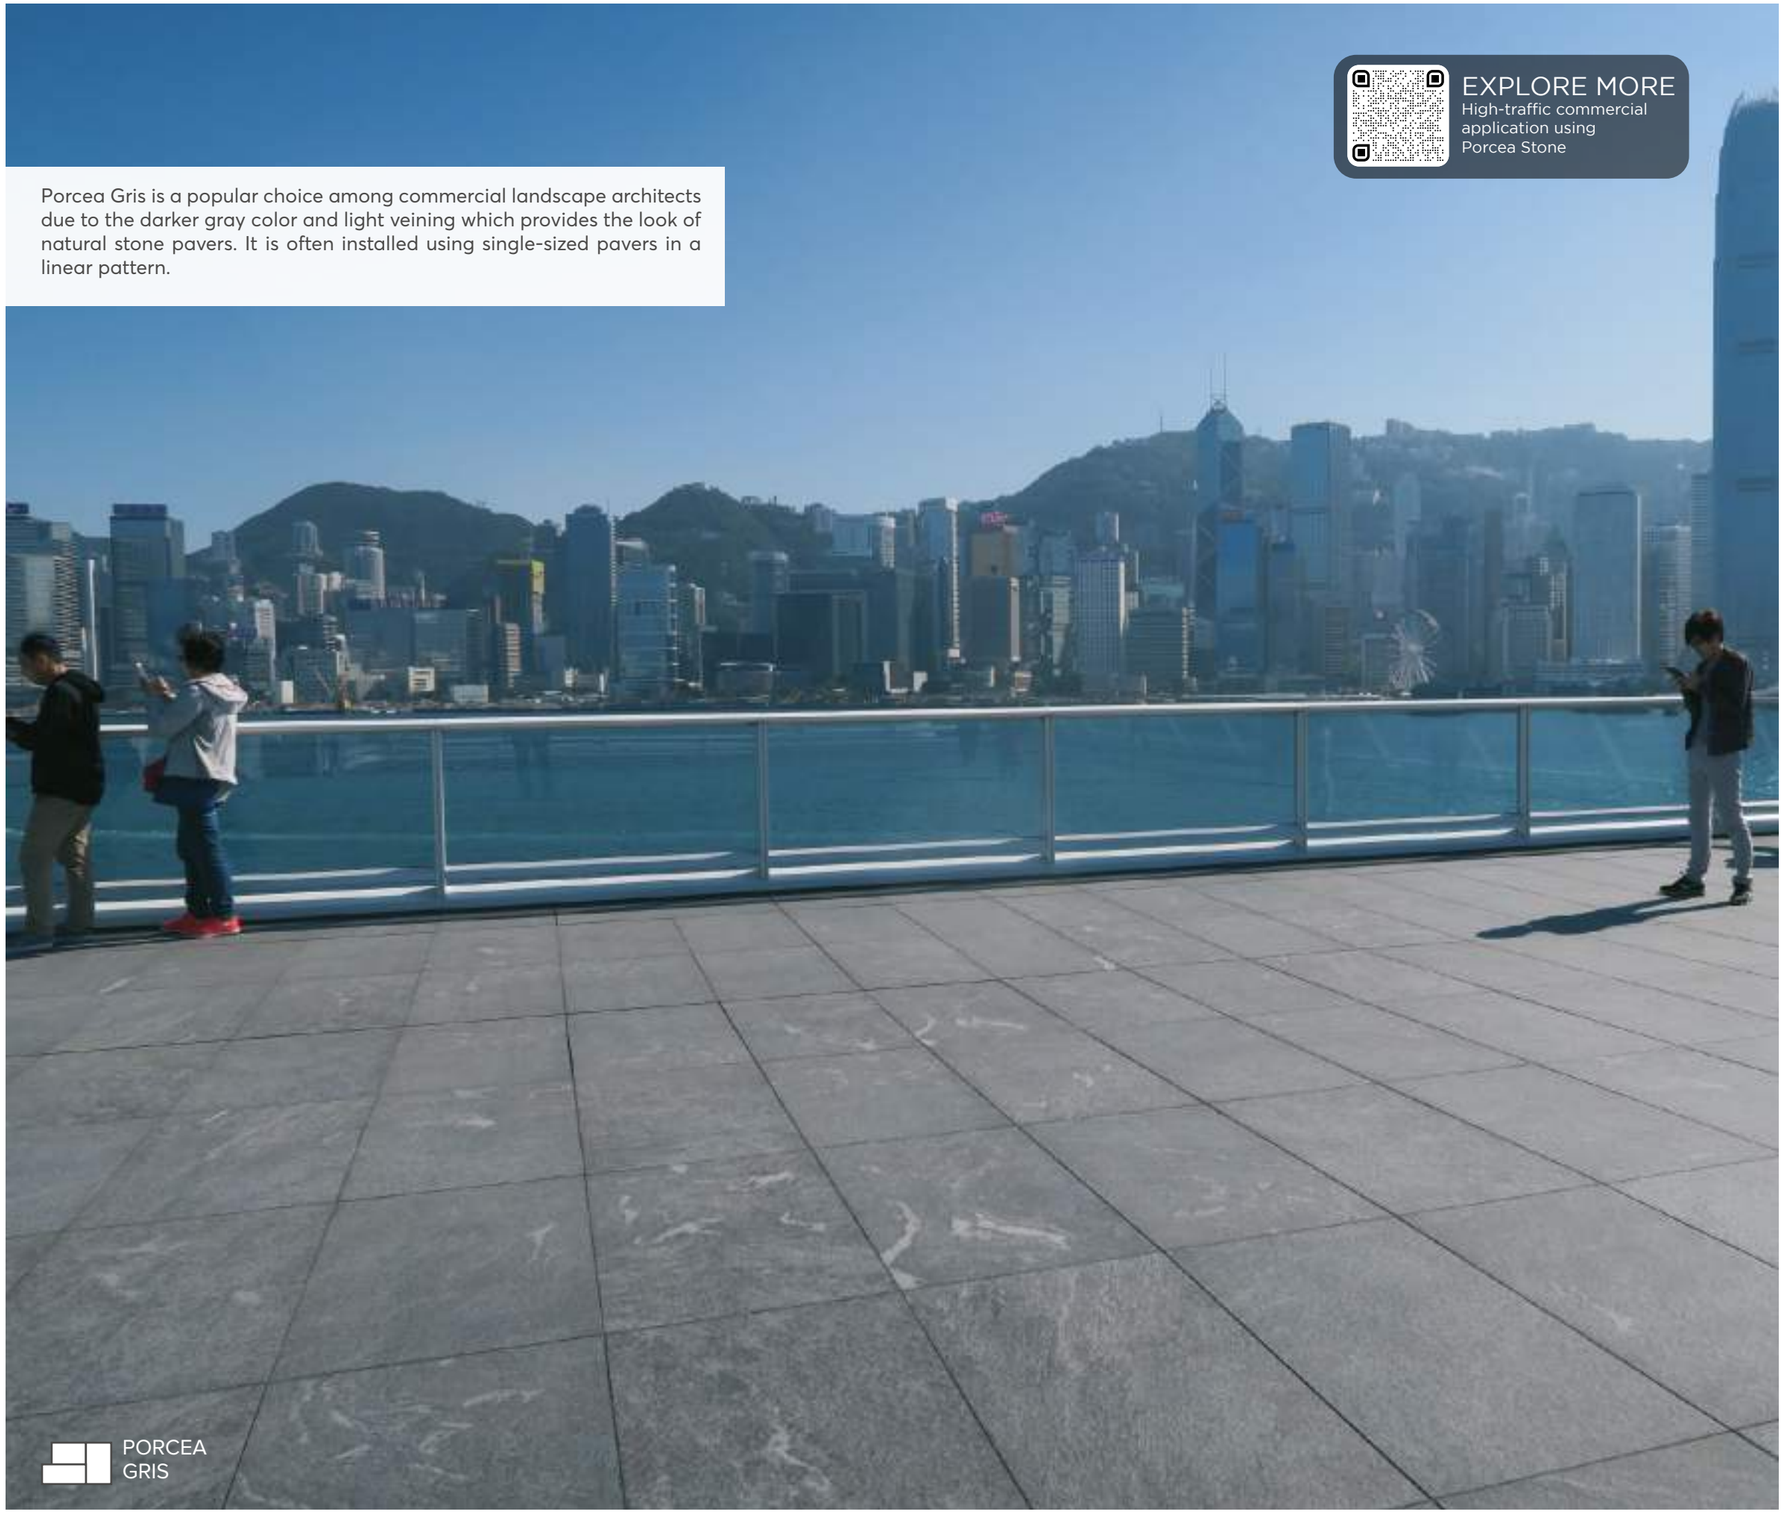
Porcea Stone Wind Uplift

Porcea Coast is a great alternative for Indiana Limestone which is a porous natural stone that is prone to staining. Like all porcelain pavers, Porcea Coast will maintain its classic look as it is resistant to staining and will not change colour over time. Porcea Coast also has high traction with a texture similar to sand-blasted natural stone.



Porcea Gris is a popular choice among commercial landscape architects due to the darker gray color and light veining which provides the look of natural stone pavers. It is often installed using single-sized pavers in a linear pattern.

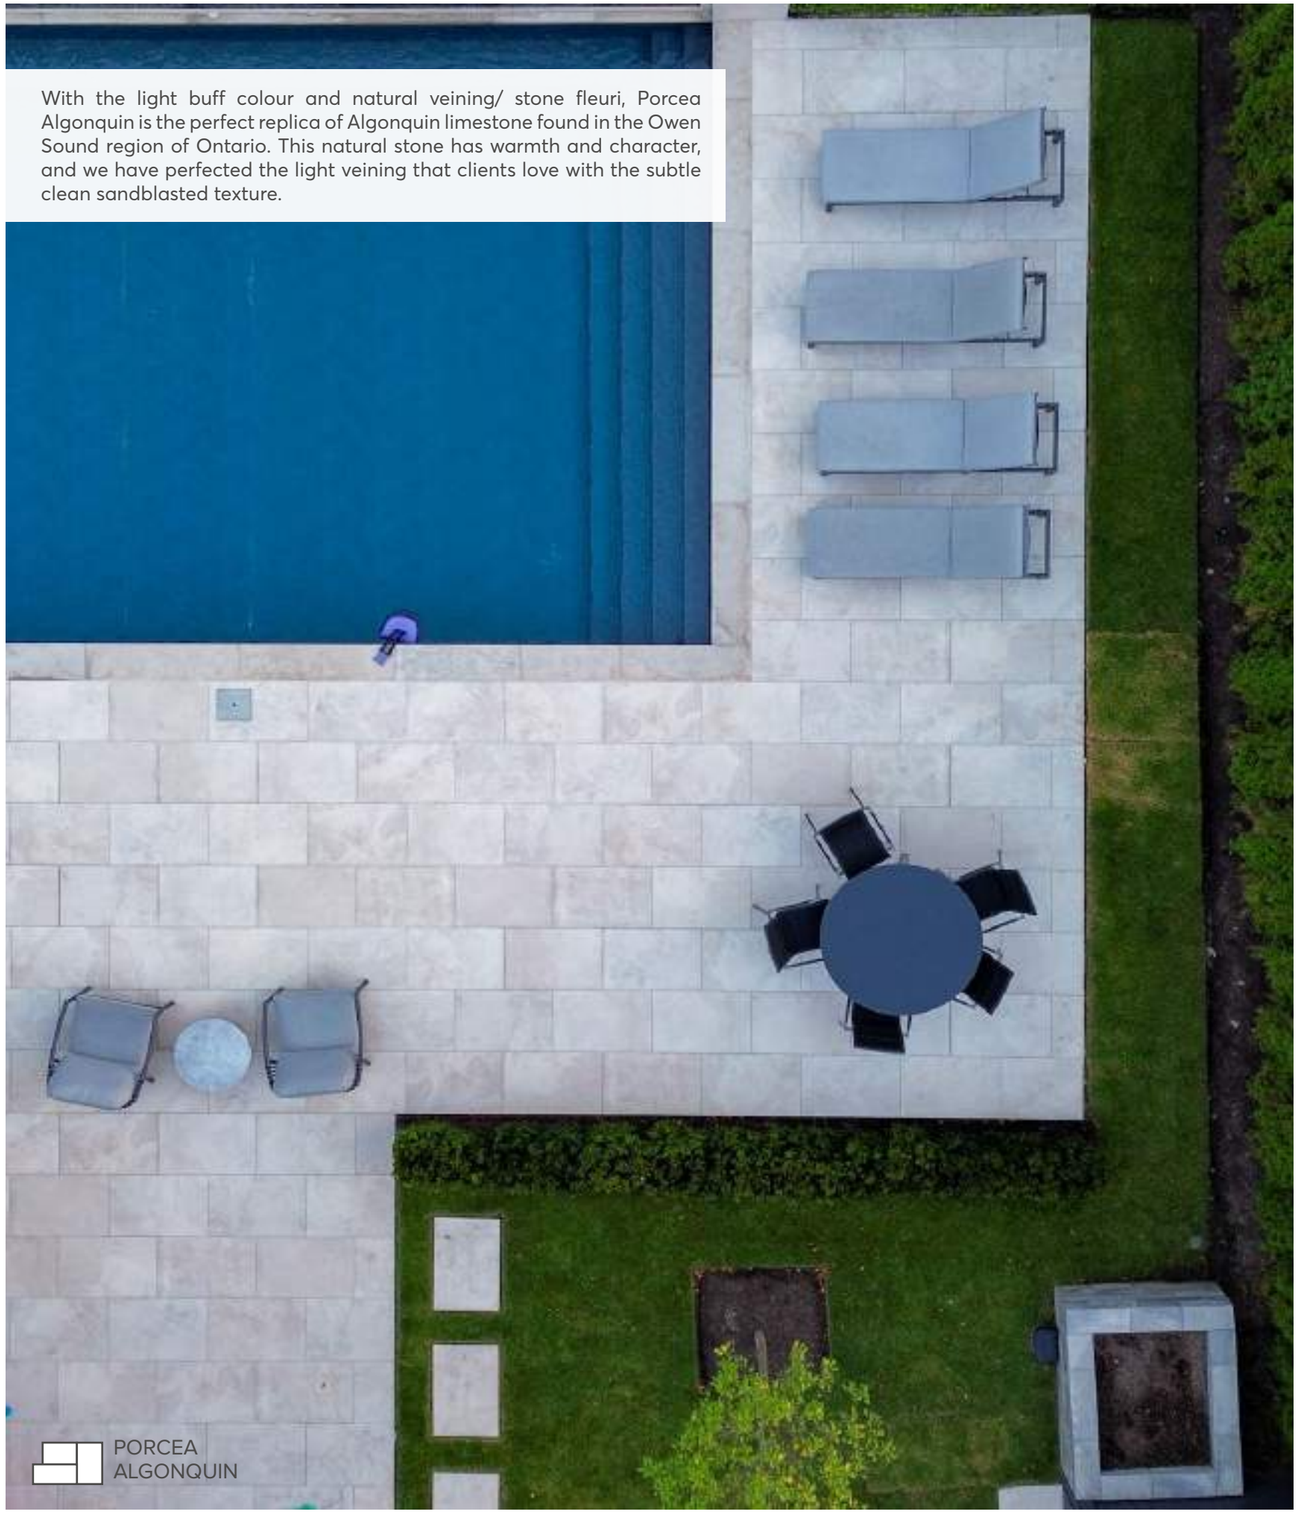
EXPLORE MORE
High-traffic commercial application using Porcea Stone



Large porcelain pavers (40x120 cm, 60x120 cm and 120x120 cm) can be used to create pedestrian sidewalks and walkways in commercial and residential projects. The minimal joints provide a modern design aesthetic.

Porcea Greige is a blend of gray and beige, allowing for a neutral option that is versatile. The light gray veins and subtle texture provide the look and feel of natural stone, but with the benefits of a porcelain paver. The earthy tones & design provides a clean, modern, and timeless look.

With the light buff colour and natural veining/ stone fleuri, Porcea Algonquin is the perfect replica of Algonquin limestone found in the Owen Sound region of Ontario. This natural stone has warmth and character, and we have perfected the light veining that clients love with the subtle clean sandblasted texture.



PORCEA
ALGONQUIN

PORCEA
AURA WHITE

PORCEA
ERAMOSA

Porcea Nero is designed to replicate the look and texture of black granite. Besides pool decks, this 3 cm porcelain paver is suitable for vehicular traffic. Porcea Stone's 20 mm and 30 mm tiles are also excellent conductors of thermal energy and are the perfect choice for a heated driveway. We recommend installing Porcea Stone on a concrete base for a driveway application.

30MM
PORCEA PAVERS FOR DRIVEWAYS

Porcea Seashell is beautiful light cream outdoor porcelain tile, designed to replicate the look of premium stones such as Algonquin Buff limestone and Turkish natural stones. Unlike softer stones that can absorb water and easily stain from moss, leaves and pool chemicals, Porcea Seashell is a popular choice for both residential and commercial projects due to the elegant yet maintenance-free characteristics.

PORCEA SEASHELL

PORCEA SEASHELL

Porcea Stone also offers fabrication of custom copings and steps in order to provide a consistent, single-colored design aesthetic throughout the project. All copings and steps are special pieces based on requirements.

PORCEA SEASHELL

PORCEA

4 WAYS TO INSTALL

ON CONCRETE/MORTAR

Designed for higher density pedestrian or vehicular traffic, this application is the strongest and longest-lasting installation method for outdoor porcelain.

ON SAND OR GRAVEL

Both 2 cm and 3 cm porcelain pavers can be dry-laid on sand or gravel for pedestrian areas. When installing, use of low fixed spacers is required to prevent movement over time.

ON GRASS

Dry laying porcelain on grass is the easiest and simplest installation method. Pavers can be installed as stepping stones for a walkway or patio as this method is only recommended for pedestrian traffic.

ON PEDESTALS

Pedestal installation is one of the most common methods to install porcelain on building terraces as it allows for the passage of electrical cables underneath and the efficient drainage of rainwater.

DRIVE-OVER
>10,000 N (recommend 2 cm installed on concrete base),
>29,000 N (recommend 3 cm installed on gravel base)
ISO545-4: Strength >10,000 N (2 cm), >29,000 N (3 cm)

RESISTANT TO HEAVY LOADS

RECTIFIED WITH BEVEL

ANTI-SLIP
R11 anti-slip rating, dynamic coefficient of skid resistance (DCOF) greater than 0.42
ANSI A137.1 (Tile Slip): DCOF ≥ 0.42; DIN 51130 (Ramp Test): ≥R11 DIN 51097 (Barefoot Test): Group C

LOW WATER ABSORPTION
Less than 0.5% absorption of water allows for high structural strength & durability
ISO 545-3: Water Absorption <0.5%

NO TREATMENTS REQUIRED

EASY TO CLEAN

RESISTANT TO MILDEW & MOSS

RESISTANT TO CHEMICALS (ACIDS, BASES AND SALTS)
Resistant to salt stains and will not degrade over time; does not need to be sealed as non-porous/non-absorbent
ISO545-13: Chemical Resistant

STAIN RESISTANT
ISO545-14: Stain Resistant

ABRASION RESISTANT
6-8 on MOHS hardness scale, deep abrasion resistance
ISO545-6: Deep Abrasion ≤ 145 mm^3

THERMAL SHOCK RESISTANT
Resistant to freeze-thaw cycles, tested for temperatures ranging from -50°C to 60°C in Scandinavian countries
ISO545-9: Thermal Shock Resistant
ISO545-12: Frost Resistant

FROST RESISTANT

COLOR RESISTANCE TO LIGHT
DIN 51094 (Light Fastness): Resistant to Fading

FIREPROOF
Non-combustible material, heated in an oven >1200°C

Disclaimer: All porcelain pavers vary slightly in technical properties based on factors such as composition of raw materials, baking time, and baking temperatures. Porcea Stone specializes in high quality pavers, however test results can vary slightly from batch to batch. We can work with you to offer product testing and reports for your specific project.

WE STAND BY OUR PRODUCTS

ETHICALLY & SUSTAINABLY SOURCED

All our porcelain pavers are ethically sourced from factories that are free from bonded labour, child labour, harsh working conditions, and unsustainable business practices. Don't hesitate to reach out to us for more information.

We stand by our products. Our commitment to you is to ensure you are always provided high quality outdoor porcelain products that can withstand the North American climate. We pride ourselves on our service and will work with you to ensure you are completely satisfied with the quality of our products. Email us at **info@porceastone.com** if you have questions or concerns.
