## PROVEN IN TILE – SINCE 1923

So much more than a tagline, Proven in Tile is a proud legacy a century in the making. With our roots in innovation, American Olean® began as The Franklin Tile Company in 1923, as early employees pioneered new manufacturing processes that revolutionized the tile industry. In 1959, the American Olean brand name was born, and continued to flourish over the course of the next several years with the company becoming a leading manufacturer of floor and wall tiles.

Today, American Olean continues to introduce innovative new processes and designs. One hundred years in the industry has certainly demonstrated our passion for providing quality products, however it is the unwavering support from our customers and our continued commitment to genuine service that truly makes American Olean Proven in Tile.
