About

Founded over 18 years ago, Royal Stones is a proudly Canadian family business specializing in the manufacturing of decorative stones for interiors and exteriors. Since the company's founding, our mission has been to offer our customers quality products that combine beauty, durability, and craftsmanship, incorporating modern techniques to meet the diverse needs of our customers.

Our superior manufacturing technology allows us to achieve reliable coloring and consistent results while meeting the strictest industry standards. Furthermore, our products offer excellent resistance to the freeze-thaw cycles typical of the Canadian climate. Their integral structure ranks among the best in the industry, which is why we offer a 50-year manufacturing warranty.

Our commitment to quality, innovation, and integrity guides us through every step of our manufacturing process. By choosing our decorative stones, you are choosing an exceptional product, designed and manufactured in Canada, and supported by a reliable and competent distribution network.

Ledge / Cobble Stone

60% Ledge Stone
+ 40% Cobble Stone.

Aspen

Bala

Black Forest

Combining the linear appearance of Ledge stone with the more rustic look of Cobble stone, it's an excellent option for creating warm and inviting contemporary or rustic decors.

* Indoor installation recommended. Please refer to the manufacturer for outdoor installation.

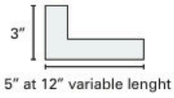

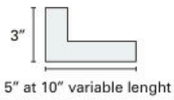

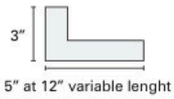

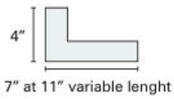

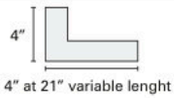

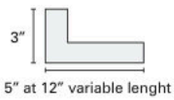

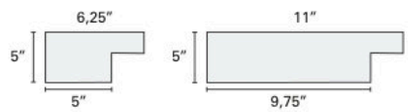

Each stone is crafted with meticulous detail and texture, closely mirroring the appearance of natural stone. In a 100 square-foot area, the weight ranges from 10 to 12 pounds per square foot. You have the option to mix and match different styles (such as Ledge, Cobble, Field, etc.) to create a customized pattern.

All products are backed by a 50-year limited warranty when installed according to the manufacturer's guidelines. They are suitable for both indoor and outdoor installations.

Please note that the colours shown in this brochure may vary slightly from the actual product.

1 lin.ft. =	1 sq.ft.		Black Rundle, Ash, Everest, Graphite, Titanium

The colour samples in this brochure are for reference only and may not perfectly match the actual product. We always recommend viewing a sample before placing an order. For a list of our retailers and additional details on installation options based on different surfaces, please visit our website at royalstones.ca

When calculating surface area for your project, it's important to account for a potential material loss of 5 to 10%. However, for installations without mortar joints using Ledge Stone, Cobble Stone, or Ledge/Cobble Stone, plan for up to 12% loss. For outdoor installations, we still recommend using mortar joints for the best results.
